KeV's Guide to - Pre Purchase Termite Inspections & Annual Termite Inspections

We can take care of your pre purchase termite inspection or annual termite inspection with a full comprehensive report including photos and description of problem areas, testing for moisture in all wet areas, physical inspection of the roof void, all timber within the home meaning kitchen, bathrooms, laundry cabinets, grounds and sheds as well as updating you on the status of any termite treatment done in the past and advice on the best practice on how to protect your investment into the future.

We have the latest technology in termite detection with Termatrac, which provides accurate data with radar, thermal and moisture technology.

Cost \$350 based on a single-story home on a residential block size.
